Automatic Qualification with Sophos MDR

Sophos MSPs using the Sophos MDR service that have Cysurance's requisite security controls in place **automatically qualify** for the Cysurance Certification and Certified Cyber Insurance programs, providing two layers of protection against incident remediation and recovery expenses.

Program Benefits

Cysurance Certified Insurance program: Provides up to \$2 million in cyber insurance coverage, including full limits, first and third-party expenses, business continuity and disaster recovery plans.

Cysurance Certification warranty: Reimburses up to \$500,000 in remediation and recovery expenses in the event of a ransomware incident, inclusive of breach notification costs, compliance and regulatory penalties, and business income loss.

Program Activation

In the event of a ransomware incident, the Certification warranty is activated first. Once exhausted, the Certified Cyber Insurance responds to cover additional remediation expenses.

In the event of non-ransomware and business continuity events, the Certified Cyber Insurance responds immediately.

Insurance offered by Cysurance, LLC. Delaware License 3000712359. All products may not be available in all states. This communication contains product summaries only. Coverage is subject to the language of the policies as actually issued.

Certified Cyber Insurance

Cysurance Certified Cyber Insurance offers full coverage limits; incident response costs are covered up to the policy's total limit. The policy also includes special endorsements that cover bricking of devices and betterment enhancements, which allows for upgrading hardware and systems to current-day standards following a breach.

Certified Cyber Insurance Features
